

Dear business partner and body builder,

as announced, we will gradually expand our trial versions.

You are now on the second version of our new bodybuilder portal ABBI Next Beta Version b.2!

Welcome!

You can view and test the new bodybuilder portal "ABBI Next". The entered data can then also be found in the current ABBI Portal.

We would like to highlight the following new functionalities:

- Implementation of your suggestions for improvement in the vehicle list
- Call of the configurators, now also for the TGE
- Links to information on
 - Admission/service
 - Technical information
 - Other MAN portals

Data on the audit cannot yet be processed.

More trial versions will follow.

We look forward to receiving your feedback on abbi@man.eu and thank you already now!

Your ABBI Team

Henning Pauli und Alexander Lenzser
